Github Account: <https://github.com/MZT7>

LinkedIn Account: <https://www.linkedin.com/in/mezu-orizu-a50612230/>

Technical Skills

Languages and Frameworks: HTML5, CSS, React.js, Next.js, Redux, Vue, JavaScript, TypeScript, Node.js, Express.js, PHP, Laravel.

Databases: MongoDB, PostgreSQL, MySQL, Firebase.

Testing: Mocha, Jest, PHPUnit, react-testing-library.

Development Tools: Git, Github, VS Code, Docker.

Miscellaneous: Amazon AWS, REST, GraphQL, Data Structures and Algorithms, Tailwind CSS, Bootstrap

Experience

Precise Platform: Lagos, Nigeria (Hybrid) - Mid/Lead Software Engineer

Oct 2022 - Present

- Accomplished the mentoring and guidance of a team of 6 frontend developers, resulting in the successful creation and delivery of the inhouse Software infrastructure([PreciseTracker](#)) for a Media Monitoring ([News fetching and Sentiment analysis](#)) and CRM ([Campaign Creation and Analysis](#)) application powered by Laravel.
- Contributed to the development of [Trendteon](#), [Surveyteon](#), [Pollteon](#), [PrecisePoint](#), rebuild of Company Website using [Reactjs](#), [Nextjs](#), [Nodejs](#), [Mongodb](#), and other industry relevant technologies(AWS, cPanel, s3 bucket, Railway, Cloud hosting and Shared Hosting services), written with JavaScript and Typescript.
- Collaborated effectively with project managers and designers to ensure the development, testing, scheduling, and validation of correct content, product assortment, and UI functionality in alignment with business expectations before publication.
- Employed testing methodologies such as jest, PHPUnit and react-testing-library, achieving a remarkable test coverage of over **80%** while debugging and enhancing numerous React components.
- Enhanced the user experience and usability of the UI by identifying and resolving bugs, leading to a remarkable reduction of resolution and settlement time for transaction issues by over **90%**.

OristoUniversal: Lagos, Nigeria (Remote) - Software Developer

Feb 2021 - Present

- Spearheaded the development of a company website using Laravel, ensuring a seamless blend of design and functionality.
- Integrated sleek UI/UX design into Laravel's Blade templating engine for dynamic and responsive views.
- Implemented robust authentication and authorization systems, incorporating role-based access control for enhanced security.
- Designed and optimized the database schema using Laravel's Eloquent ORM, facilitating efficient data management.
- Developed RESTful APIs to enable seamless communication between the front-end and back-end, enhancing website functionality.
- Monitored post-launch performance and promptly addressed any issues, ensuring optimal uptime and a smooth user experience.
- Engaged in post-project reflection to gather insights for continuous improvement and planned future enhancements for scalability.

Freelance: Lagos, Nigeria - Fullstack Developer

May 2018 - Present

- Demonstrated the ability to craft websites using React.js, Next.js, Laravel and various other technologies, leading to a substantial **90%** increase in customer conversion rates.
- Conducted rigorous unit testing to bolster system stability and scalability, proactively identifying critical performance issues during the development phase.

- Efficiently reduced development time by **50%** through the seamless integration of Firebase for fundamental backend features, including user management and data storage.

Education

Babcock University: Ogun, Nigeria - Bachelor of Science in Computer Science

June 2019

- Major in **Software Engineering**.
- **Courses:** Data Structures and Algorithms, Object Oriented Programming, Operating System.
- Minor in **Computer Engineering**.
- **Courses:** Computer Architecture, System Design.

Personal Projects

To check other personal project, view portfolio (<https://mezuo.netlify.app/>)

- **Delifax Delivery app**([View](#)): Designing and developing the frontend of a delivery app that bridges the gap between individuals and logistic companies and transport riders, showcasing expertise in Next.js, JavaScript, hooks, context, and reducers.
***Highlights:** real-time delivery, and advanced Communication.*
- **E-commerce website:** Designed and developed an ecommerce app that allows users to pick(in cart) their product and make payment using Paystack, showcasing expertise in Laravel, PHP, Eloquent ORM, Livewire, Alpinejs, and Tailwindcss.
***Highlights:** Ecommerce.*
